

### Dear Steve

Welcome to our first email newsletter. The aim of future newsletters will be to provide a monthly update on new developments in the field of decommissioning, decontamination and demolition, including:

- Asbestos vitrification - can you soon be achieving 100% recycling on your demolition projects?
- Waste exemptions and licenses - the latest round and what they will mean to demolition waste management.
- Environmental Impact Assessments for demolition - new case law may require EIAs to be considered.
- Tax breaks for site closure - what can the tax man give you back?

### D3: Decommissioning, Decontamination, Demolition

D3 Consulting Limited is the result of a teaming between senior demolition experts Martin Bjerregaard formerly of Golder Associates, and Alan Ramsay formerly of DPSi Consulting Engineers.

We are joined by Louise Carter in decommissioning and decontamination planning, and Kathryn Sentance in hazardous waste characterisation.

We provide extensive specialist advice, support and management to clients in the fields of decommissioning, decontamination and demolition by both conventional methods and the controlled use of explosives including:

- Demolition consultancy and management;
- CDM coordinator;
- Civil, structural and geotechnical engineering consultancy;
- Divestment and asset realisation;
- Deplanting and complex dismantling activity engineering;

- Waste characterisation and facility audits;
- Environmental monitoring; and,
- Project programming, planning, budgeting and oversight.

For a full description of our services and current projects, please visit our new website at [www.d3-consulting.com](http://www.d3-consulting.com).

## Contact D3 Consulting Limited

D3 is based in the South West of England, with regional offices in Glasgow and London. We carry out management of demolition projects for, or in conjunction with, clients for their major decommissioning and redevelopment programmes throughout the U.K. and abroad.

## Current projects

D3 is currently involved in several major projects involving the provision of engineering and project management services to a number of clients in the UK and overseas:

- High-rise demolitions in Glasgow;
- Waste characterisation for decommissioning planning at the Dungeness Nuclear site;
- Mine site closure costing in Canada;
- CDM coordinator for the ongoing disposal of Shell's INDE platforms by Veolia Limited taking place at the former Swan Hunters yard in Newcastle; and,
- Support and specialist services to various clients involved in the North Sea sector oil and gas production.

To all our clients, colleagues, friends and families, we would like to wish you a happy and prosperous 2012.

Warm regards,

Martin Bjerregaard & Alan Ramsay
